core the triumph of Democracy in the

Very truly, your obedient servant, JOHN YOUNG BROWN. HENDERSON, July 13, 1868. A Gallant Democrat. From the Henderson (Ey.) News.

In reference to our distinguished fellow-citizen, it will be seen by his card in our paper that Mr. Brown will not be a candidate at the approaching election, as he is the very last man to push his claims when the interests of the Democracy are in any way imperilled. There is an doubt bat that he would he again trimmphantly re-elected by a much larger majority than before (over 6,000), and that he is the first choice to represent our District. first choice to represent our District. But the hereatened disasters to the Republic, [Applause.]

But the Republican party has aot stopped here. It has robbed the President of his most essential constitutional power so as to practicully destroy the Executive as one of the independent co-ordinate departments of the General Government. It has in effect, too, destroyed the chief functions of the Supreme Court, the other co-ordinate department, taking from it the power of passing judgment on the constitutionality of the scheme of reconstruction. Striking down the greatest powers of the Executive and the Judiciary, it has breken loose from the restraints of the Constitution, and now acknowledges no limits to its power, and no right in any other department to question it.

I ask, fellow-citizens, whether we now live under the Government formed by our fathers—a Government for the venture and the others? No, we do not live under a Constitution, but under a Congress which tramples the Constitution under foot, and is for the time omnipotent.

Three years after the total suppression of the rebellion, the radical party gives us not the rebellion, the resdical party gives us not the rebellion, the resdical party gives us not the result of its rule, and in return for the vast powers and treasures confided to it, a Luion with ten of the great State. first choice to represent our District. The Southern white men, suspected of

The negroes presuming on this condition of things, have insolently and threateningly fourished their weapons on all occasions in the faces of disarmed white men. But there were some of the negroes, who, not having freezems or the money to obtain having fire-arms or the money to obtain them, could not do their full part in the work of their black brethren. The Ruin of a Lovely Girl - Her Sad Fal-

We heard one of the anddest stories of scluction, desertion, and death, which happened lately, that it was ever our effice to chronlele. In a neighboring county there lived a widowed mother, with an only daughter, and upon the latter had been best over devery advantage of education and culture which limited means and an assiduous attention could afford. The girl was brought up in the utmost seclusion, but had access to the library of a gentleman of the nelghborhood, who had more than ordinary faste for reading, and who would himself bring such books for her to read as he thought would be instructive nut interesting to one of her We heard one of the saddest stories

Buried in a Well.

On last Friday a sast accident occurred near Flint lake, three miles from this place, whereby a worthy citizen lost his life in a sndden and horritle manner. Mr. Lewie Kopp was a young German, horest and worthy, who had served through the war, been several times wounded, and disabled to such an extant that he received a peusion from the Government. For some days past he had been engaged in digging a weil on his place, and, after reaching water, at a depth of sixty feet, had commenced walling in up. Friday aiterncon the man engaged in laying the stone near the bottom becsme alarmed at the appearance of the walls and called to be drawn up. When he reached the top he was very much frightened and declared he would not return.

Kepp langhed at his fears, and, jumpling into the Lucket, saked to be lowered. He had been down but a short time when sundenty the dirt walls gave way, hurying the unfortunate man nearly sixty feet below the surface. An awail scene of angulah and confusion anceeded. The family of the dooned man, consisting of his wife and three children, were frantic with grier, while the neighbors from all directions were hastily summoned to the scene. Relays of men were organized who worked at the immense monntain of cley all night. Though his immediate death was almost certain, atil the fact that the wall below had been commenced, and might thereby furnish sime protection and possibly air sufficient to snatain life for a time, nerved their same with double etrangth and the work was prosecuted with the namost vigor until at isst the body was found, and then silently drawn up, crushed and lifeless. It is prohable that death was instantaneoue.

BROOKLYN, July 13, 1868,
The enthusiasm created by the nomination of Horatio Seymonr for President, and Frank P. The Empire Stata will give the ticket a majority of 600,000. The toiling militone of the Eastern States are awaking to the neccessity of a change in the General Government, and now Maine is counted as atanding by Wm. The Governor took up the p'atforms of the two parties and contrasted them in a masteriy manner. The Chicago plat-toru, asid he, is the pletform of the negro end the bondholder. It holds ont no hope for the white taxpayer, It de-mands the hallot for the negro—the bouthern negro, of course, including the Kentucky negro-with gold for the bond-holder, and neither gold nor greenbacks for the white iaboring man. Radicalism is the worst enemy of the poor man-especleily if he happen to ha white. The second plauk in the Chicago platform is negro suffrege. Can the people
of Kentucky ewellow it? Not without a
struggle, I venture to say. We are contred to ail-that is, the right of the negr alone to vote at the South end the w man alone at the North. The poor white man at the North is certainly to be con-gratulated that the right to vote is etili The redical party conlend that the

Stanford was called to the chair and Samuel N. Forline wee mads Skoretery. Scretery.
The chair appointed Messrs. W. B. Clark, F. Lee Wilkinson, Ira J. Bogen and Thomas Meguiar a committee on resolutione.

Resolved, That we will earnestly work to redeem our country by electing Say-mour and Blair; thereby seek to estab-lish justice in all the States with no deg-radsion in the white man or destruction of the principles that made the Federal Union.

Gov. Stevenson was introduced by Baker Boyd, Esq., with a faw appropriate remarks. The Governor esid this was his opening speech of the Presidential campaign. It was the Hon. J. Alien Murray, the able Representative of this county in the State Legislature, who cominated Mr. Stevenson for Governor is the State convention and heard and campaign. It was the Hon. J. Alien Murray, the able Representative of this cuntry in the State Legislature, who nominated Mr. Stevenson tor Governor in the State convention, and hetendared his thanke to the people of the country to the liberal auppoit they had given him. The rule of radicalism, eald he, is a canflict with our republican form of government, and, if not arrested and disarmed and rendered powerless for further harm, will insvitably compass the utter ruln of the country. Look at the Chicago piatform. Weigh the principles there laid down and tell me if the party which stends upon that pietform is fit longer to rule the country. I opposed the rebellion in Congress, and many of you opposed it here; but, in entering into a league with the Government to putdown that restellion, diy ou get what you bergained for? You contended for the Union; radicalism hee given you disunion. What your colders fought for is now treason! Our object was to bring the South back into the Union; radicalism has kept her out of the Union; three years after peace wes declered. Cittenden and Lincoln and other men in high places told you that the war was not waged for the autiguation of the South, but simply to restore the Union; three years of what is called peaca have pessed since the last hostife gun was fired, and to-day we see a subjugaled South but no restored Union. Widowe and orphans of Kentucky! look at the graves your tears have belewed, and and any the gailant soldiers who sleen when the state of the deviation in the white man or dedered in of the entities of the contracy that ever assembled in old Simpson, and was eloquently addressed by Hon. galed South but no restored Union. Widowe and orphans of Kentucky! look at the graves your tears have belewed, and ray if the galiant soldiers who sleep within them fought to place you under negro rule! No! they fought for a higher and nobler purpose, but under that rule it is the aim of radicalism to place you. That this netarious echeme may be defeated, it is the imperative duty of every Kentuckian to raily to the Democratic standard end make a heroic struggle to secure the ascendency of the great conservalive principles enuncialed by the Fourth of July
